

PHONE CON w/ ANN LEVINE 1400
21 FEB 91
w/ DA. HARTLEY

ERM LOUISIANA WILL BE ON SITE 2ND OR 3RD
WEEK IN MARCH TO ABANDON SOME WELLS, REPAIR
SOME WELLS, AND INSTALL NEW WELLS.

INTEND TO REPAIR B 110 B116, B114 WILL
BE ABANDONED BECAUSE IT COMPROMISED CONFINING
CLAY LAYER. ERM CONTACT PETER REAGAN, PM
(504) 831-6700. ERM HAS BEEN TAKING WATER LEVEL
READINGS 1/WK FOR 2 MONTHS. HAVE PETER REAGAN
NOTIFY PERTINENT PROJECT PEOPLE. B~~110~~ 115 if hand bailed
of product every 3-4 weeks (takes this long to accumulate
enough to be able to bail). Will be testing soil
for Dioxin.

Center pond dries up in the summer months
After soil excavation - pit left overnight -
Came back next morning - pool 12" x 12"
of product. PRP are still trying to
hold Chapman to blame in Part.

Re: Remedial Investigation/Feasibility Study

Dear Ms. Levine:

Pursuant to a request from Ms. Dawn Hartley of Ecology and Environment, would you please forward a copy of the Remedial Investigation/Feasibility Study (RI/FS) submitted on behalf of Joslyn Manufacturing Co. (Joslyn) and Columbia Steel Casting Co., Inc. (Columbia) to Ms. Hartley. She is located at Ecology and Environment, 101 Yesler Way, Seattle, Washington 98104.

Joslyn remains committed to voluntary implementation of the RI/FS with the oversight of the Oregon DEQ, under the terms of the Administrative Order signed by both Joslyn and Columbia. By doing so, we hope to avoid both costly and duplicative work at a later date, as might be required by other agencies. Please advise me if you anticipate any delay in mobilization as to field activities, pending this review of the RI/FS. If you have any questions, please contact me at (312) 454-2865.

Sincerely,

Carl S. Grabinski
